

# Abortion Ministry

October 2005

Vol. 1 No. 2

***“For You formed my inward parts; You covered me in my mother's womb.” Psalms 139:13***

## **The hand of God at work...**

In this last month God has been blessing the services that we are doing in the hospital. He opened up the hearts of people who are working in the hospital, and they let us show the movies every day. So now the film can be watched by all women, not just the women there to have abortion. Whoever comes to the hospital will come and see the films (and sometimes their boyfriends are with them so they will watch it too.) We can see how God is touching the hearts of these people. Someone sits attentively, someone else is crying and someone else is just watching, but we get the opportunity to fellowship with these women and see their needs and pray with them.

It is a really big blessing and honor to do His plan and serve these people. I can see that God is changing their thoughts about the world, He is showing them falsehood and truth. He wants to tell them about His love, but many are caught up in their own pain and bitterness because of their sin. Therefore, they cannot see His mercy and come to Him.

Please pray for their wounded hearts, and for those who serve them there at the hospital. This is not a very easy ministry, but He is always with us and always faithful! Pray that God would open the doors to the schools because we believe that it is a big need to go and educate the young people there about abortion and abstinence. The doctor who is reading lectures at the school, she liked one of our films and she showed it in the school. In recent days a young girl of 16 was murdered in our city. She was violated and murdered by her boyfriend, so we know that we need to reach the young people of the city. Pray for our ministry. Your prayers and encouragements are very important!

---

*Also, in the beginning of October Victoria had an opportunity to go to St. Petersburg and have some training with a woman named Larissa (they are pictured together to the right). Larissa runs a Silent Voices center in St. Pete and so Vika was able to go and learn some things there. She was blessed by this time that God gave her!*

### *Prayer Needs:*

\*That both directors of the hospitals will continue to be open to our presence there.  
\*That women's hearts would be open to the truth.  
\*That God would open new doors into the schools and throughout our community.

### *Updates:*

We have now been offered a new opportunity to come to the hospital each day and show the films while the women wait to have their analysis done. Each woman must come to have an analysis before having an abortion. We did not ask for this permission, but the doctors came to us!

### *Needs:*

\*We would like to raise \$200.00 more a month to support Victoria for all of her monthly needs and taxes that she has to pay to the government.
