“Pro-Choicers”

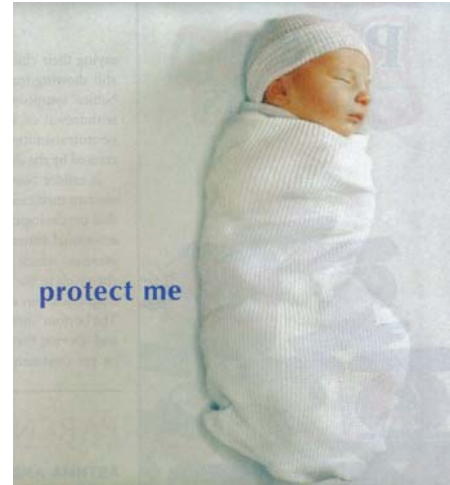

During the past few months, we’ve experienced a lot of victory at the abortion clinic. God is doing much through the people who sacrifice time to be there. With the victories have come challenges as well. Pro-choicers have come not only to stand for their point of view, but to try to antagonize us as well. Overall, we’re proud of the way God’s people have responded— in love. We can do better though. Although this may seem like a jab, let it be an exhortation. We all know sometimes it’s hard not to respond when someone does their best to stir us up.

Consider Matthew 4, where Jesus was right next to the enemy. If we’re doing right in the eyes of the Lord, there is gonna be opposition. These people aren't opposing us, don't take it personal. It's between them and God. Consider also that these folks may never get to hear or see the gospel anywhere else. It may be that God has granted them one last chance to make a choice for Him. Let's ask ourselves: Can I die to self so the Lord can knock on their heart's door? Hey, they may or may not receive Christ— that's not up to us. However, let's keep each other in check to be good representatives of the Lord.

College and Career

We wanted to publicly thank the College and Career Ministry for being examples to us in standing for life at our local abortion facility. For months now, a group of committed believers has been out there. Since they started coming there has been revival of sort ! People passing by are hearing the gospel and some are receiving Christ!

It's amazing what God can do with hearts that simply want to obey Him.

Summer Kick-Off BBQ

If you're reading this then you are invited to our annual “Kick-Off to Summer BBQ”. We'll provide the food, you just bring your appetite. We'll meet in the Mini-Chapel next month (Friday, June 8th @ 6 PM).

This is a time to come and ask questions. We want to equip you, encourage you and bless you. Please, if you or someone you know has had an abortion— join us! Many in our ministry can testify of God's healing grace after an abortion. Let us help, even if it means just encouraging you in the Lord.

Another Save!

In the midst of recent opposition at the clinic, there was another life saved. A friend who was part of the save phoned to make sure we knew... we didn't! We were all focused on what the enemy was doing that we forgot about what the Lord did.

“Let us not give up meeting together, as some are in the habit of doing, but let us encourage one another...” *Hebrews 10:25*
